THE GAME

HAPPY 81 is a video slot game, controlled by random numbers with four rotating reels and 81 possible ways to win. Each of the 4 reels is marked with symbols and each time a play is made, the four reels stop at random. In the play window a selection of a total of 12 symbols is then shown (3 symbols per reel). The amount you win depends on certain symbol combinations and the amount you bid.

Can be played either with the mechanical buttons or with the buttons on the touch screen (if available), or a combination of both.

GAME RULES

- All wins pay left to right on consecutive reels, beginning with the far left reel.
- Only the highest way win is paid.
- WILD substitutes for all symbols.

WILD

- WILD Symbol substitutes for all symbols.
- Maximal 3 WILD Symbols can appear on the screen per game.
- WILD never appears on the 1st, 2nd and 3rd reel at the same time.
- If one or more WILD substitute in a win, the pay for that win is multiplied.

1 WILD in a win combination = WIN x2

2 WILD in a win combination = WIN x4

3 WILD in a win combination = WIN x8
